ANALYSIS OF SCHOOL AID IN MASSACHUSETTS

CHAPTER 70 AMENDED

The following pages represent a brief analysis of State Aid to Education under the provisions of Chapter 70 Amended. The two years selected reflect the impact of the change in equalized valuation of 31.0 billion dollars in 1971 and 1972 to 35.0 billion dollars in 1972 and 1973. This analysis affords an excellent evaluation of the school aid formula and its specific effect on the various cities and towns as to equalized property valuations, reimbursable expenditures, school attending children and pupils in net average membership. A further evaluation can be made of the computation of school aid percentage, valuation per school attending child, valuation percent and school aid entitlement for the distribution of the calendar years 1972 and 1973. NOTE: THE DATA ON THE FOLLOWING PAGES ARE FOR THE CALENDAR YEARS 1972 AND 1973 IN WHICH THE DISTRIBUTION OF CHAPTER 70 AMENDED ENTITLEMENTS ARE MADE.

Distribution year entitlements for 1972 are based on data reported in the 1970 - 1971 computation year and distribution year entitlements for 1973 are based on data reported in the 1971 - 1972 computation year.

The analysis of Chapter 70 Amended data requires three parts in this report. Each part has been treated statistically to the extent that it allows the reader to better understand the path of school aid computation from year to year.
